

Food Waste Auditing

FROM LEANPATH, THE EXPERTS IN FOOD WASTE TRACKING

Conducting a waste audit is the first step in planning a food waste management initiative.

- ***You need the right tools to move beyond the many limitations of a manual “garbage sort.”***
- ***You need a complete and accurate portrait of your food waste stream—developed efficiently and easily.***
- ***You need short-term rental access to waste auditing systems from LeanPath!***

Food waste tracking systems improve the quality and usefulness of your waste audit, giving you:

- Faster, more accurate, & standardized tracking
- Detailed information on food waste by type
- Ability to easily track week-long sample periods
- Simple for front-line staff to learn and use
- Immediate, professional reporting
- Expert planning guidance from LeanPath
- Staff engagement in the process of auditing
- Applicable for both pre & post-consumer food waste
